

TWO HALF DAY WORKSHOPS

SS15/3 & SS15/5 Fire and Smoke Separations

1: PASSIVE FIRE PROTECTION: INTRODUCTORY (Morning)

2: FIRE AND SMOKE SEPARATIONS: INSPECT - MAINTAIN AND REPORT (Afternoon)

DUNEDIN • NELSON

The Association of Building Compliance is pleased to present our SS15 Passive Fire Protection workshops as part of our 2023 training series.

Our half day workshops are designed to provide hands-on technical training and information for Inspectors, Testers, IQPs and Council Officers, and other interested parties working in the building compliance sector.

1 INTRODUCTORY (1/2 Day)

This course is a step-by-step guide through the purpose and broad concepts of Passive Fire Protection providing a general understanding of the different elements that make up passive fire systems for different buildings, types of construction, fire stopping systems, fire rated dampers, fire rated ducting, fire rated structural elements and the latest trends and products.

Suitable as a general introduction or refresher on passive fire protection.

This course is a general-purpose workshop on passive fire protection systems suitable for those in the compliance sector seeking to gain further understanding of systems approach and components.

This workshop does not cover IQP inspections.

2 INSPECT - MAINTAIN - REPORT (1/2 Day)

A workshop that looks at the BWOFF requirements relating to Passive Fire inspections and reporting.

What and where inspection personnel are obliged to inspect under the BWOFF and compliance regime. This workshop includes the purpose and components of fire stopping systems, how to approach the process and procedures of inspections.

Essential areas in a building to inspect and why, a practical look at common defects and maintenance, key points regarding fire and smoke doors, what inspectors should know in relation to fire rated dampers, duct protection and fire stopping of service penetrations, information recommended for compliance schedule documentation.

Presented by
Ron Green
- Fire Group Consulting

Ron is widely known nationally for his knowledge in Passive Fire Protection. Ron's knowledge in Passive Fire Protection includes Expert Witness, Design, Installation, and Inspection. Ron is an active IQP who knows what to do when dealing with new and older buildings.

Ron teaches from his own experiences and as a trainer for many Councils, is full of helpful tips to help you and your clients. This is not a theory course!

This is a unique course that is run by a professional passive specialist who has a broad-based practical background and who is still actively involved in day-to-day passive inspections including construction monitoring of new buildings.
